

Virtual Poster Upload Using OASIS

Neuroscience 2023

Getting Started

SFN 2023

SFN2023 Session Proposals

Tasks 1

Kathryn Harper

Welcome to the Neuroscience 2023 Virtual Poster Presentation Upload Site.

Upload Deadline: **Thursday, October 26, 2023 @ 5 PM ET**

Please follow these steps to upload your presentation material. Click on each file type below to upload your PDF (required) and video (optional). If the upload is successful, the status will indicate "Processing" or "Complete". After the upload is complete, click the eye icon to review. If you need to replace a file, delete the current upload first by using the trashcan icon.

Upload your presentation:

- **Poster PDF (Required):** This will be the primary visual when someone clicks into your poster. Upload a single or multipage PDF slides representing the poster. This must include the study's introduction, experimental design, analytical methods, conclusions, and acknowledgements of funding sources. This file should be **less than 2GB**. [Download a sample PDF](#) or see various poster formats in this [how to make and present a poster webinar](#).
- **MP4 video file (Optional):** The presentation should be 5 minutes or less explaining the poster's key points. The video file size should be **less than 2GB**. The video will be automatically transcribed. Captions cannot be edited. If you prefer to edit your captions, please submit a video with permanent captions already incorporated. After the system has processed your video, you can review the uploaded video. If you need to replace the file, delete the current upload first by using the trashcan icon. [View a sample poster video](#).

As a reminder, there is **no live requirement** for virtual poster presentation. Your poster will be available for all Neuroscience 2023 registrants from November 2 – December 15, 2023. During this time, meeting registrants can view your poster materials and leave questions or comments.

Please email program@sfn.org with any questions.

The screenshot shows a poster template with the following sections:

- Logo**: Placeholder for the poster's logo.
- Poster Title**: Placeholder for the main title.
- Authors**: Placeholder for the authors' names.
- Affiliation**: Placeholder for the authors' affiliations.
- Introduction**: A section for a clear and concise paragraph to inform the reader of the study's background, goals, and importance.
- Methods**: A section for sufficient detail so that an informed reader could repeat the study, including species, sex, age, and statistical methods.
- Conclusions**: A section for visitors to read first, using concise statements and bullet points.
- Acknowledge funding sources**: A section for acknowledging funding.
- Figure 1**: A line graph showing 'Performance' vs 'Pupil Diameter (%)' with a 'Stimulus Onset Curve'.
- Figure 2**: A scatter plot showing 'Mean Performance (%)' vs 'Pupil Diameter (%)' with individual data points.
- Figure 3**: A line graph showing 'Mean Performance (%)' vs 'Pupil Diameter (%)' with error bars.
- Figure 4**: A line graph showing 'Mean Performance (%)' vs 'Pupil Diameter (%)' with error bars.
