

Career Development / Promoting Educational Opportunities Peru Chapter

Laura Baquedano, DVM, MSc, PhD(c) (laurabaquedanos@gmail.com)

Chapter Goal

Peru Chapter was founded in October 2020 by a group of professionals from diverse areas and fields of application with the mission of promoting the development of knowledge in the field of neuroscience.

Our Community

- We have more than 139 members.
- We have worked with around 150 volunteers.
- Around 30 collaborating organizations.
- Our social media networks reach around 4,000 followers.

Programs and Events

- Outreach Volunteering Program.
- Research Groups.
- International Neuroscience Congress.
- School Neuroscience Contest.
- Brain Week.
- Educational workshops for children aged 6 to 8.
- Networking, Webinars, NeuroClub.
- Continuous Training Courses in Neuroscience.
- Art Exhibition "NeuroArt" featuring professional artists from the School of Fine Arts.

Collaborations and Partnerships

We have created a wide network of collaboration with prestigious universities, private institutions, and non-profit organizations.

Impact in Neuroscience

- The Outreach Project has trained around 80 professionals in topics such as digital tools and science communication.
- The Neuroscience at School Project has educated approximately 200 boys and girls in primary education.
- The Neuroscience Dissemination Project has presented neuroscience topics to around 10,000 attendees across all its virtual and in-person events.
- We have promoted the creation of 3 student circles in engineering, education, and psychology faculties across different universities.
- We have co-created the Neuroscience Committee of IEEE Peru Section.

Funding and Donations

• We are a non-profit organization, so our funding is through donations, but we are especially supported by visibility on social media. It is important to highlight the role of sponsors in ensuring that initiatives like Chapter Peru can continue to thrive.
